KEYNOTE SPEAKER LIST

Dr Gregory H Watson
Past Chair – American Society for Quality, and esteemed thought leader

Digitisation: Stimulus for Reassessment, Rethinking, Refinement, or Revolution of the Quality Profession

While the benefits of digitisation are obvious, there are potential impacts for which all Quality professionals need to be prepared. The time to reflect, think, and decide what to do is NOW!

Mr Kumar Parakala
President of QMD Digital, Kumar is an entrepreneur, business builder, digital innovation evangelist and among the world's leading thinkers

Reimagining process to transform organizations in a post-COVID world

Discover how to achieve the objectives of digital transformation by reimagining the critical business processes impacting your value chain to create breakthrough value, meet customer expectations and achieve business outcomes.

Ms Pat LaLonde
Past Chair – American Society for Quality, Pat is also a highly experienced supply chain executive

Quality Management's Future Challenges

In a world of sudden and unexpected changes, we are constantly being challenged to adapt. Pat explores what we need to consider in the key areas of Adaptability, Innovation and Customer Focus.

Mr Mike McLean
Internationally-recognized strategic change consultant

Future Business Excellence: What to Keep, Change and Create

Explore the true nature of excellence – now and in the future. Mike will discuss warning indicators that many of the tools and frameworks we rely on may not be fit for purpose, and proposes the "What to Keep, Change and Create" strategy, which can be utilised NOW, for those who aspire to be excellent.

Professor Nigel Grigg
Professor of Quality Systems at Massey University, New Zealand

Quality in the balance? Competing in the age of black swans and grey rhinos

In globalised markets, supply chains, logistics and data, customers demand ever more competitive quality, delivery and price. Nigel deconstructs Quality management to its core elements and explores how they still apply in today's context.

Mr Devraj Chattaraj
Accomplished industry expert, TATA, India

The Excellence Journey in TATA - a case study

Learn from the journey to excellence that has been core to TATA's strategic development, and is central to the positioning for future success.

Dr James Galloway
CEO, JAS-ANZ, Australia

Accreditation Future

Accreditation and certification form elements of the national quality infrastructure. But are the processes that deliver them still fit for purpose? Hear the case for change and several initiatives aimed at rethinking the relationships and processes that underpin conformity assessment.

Dr Rey Fremista
President of the Philippine Society for Quality, and an acclaimed thinker in high-performance leadership and culture

Reimagining the Future of Leadership: Building Human-Centered, Intelligent Organizations

Join Rey to unpack developing leadership skills for the post-pandemic, hybrid environment, and discover the success factors for building a human-centered, intelligent organizational culture.

Ms Marina Pullin
Internationally-recognized consultant specializing in complex organizational redesign and technology integration

Value is in the eye of the beholder

Join Marina as she explores the concept of value in our modern world of permanent adjustments, and learn how we can adapt the core concept of Kaizen-based Value for 2021 and beyond.

Ms Cynthia Payne
Cynthia is an experienced CEO with some 30 years executive leadership experience. She also for many years exercised organizational governance as a Director and Board Chair

Transformation at Speed

Cynthia will unpack the 'rethinking of leadership and people' in this fast moving context. Cob of tips and insights relevant for any organisation.
